Adult Community Night Building Usage Regulations

Community members may use the gym facility on Wednesday nights from 7:00 to 10:00, from September through April, during the school year, if one of the approved community sponsors is present. If there are any school events or activities needing the gym(s), they will take precedence and may require the group to use the elementary gym or cancellation of the adult usage. The school has the right to postpone or cancel the usage as they see fit. No children, high school age or under, are to be involved or in the building.

Our custodians are in charge of the building. Anyone who argues with or is disrespectful to them will be banned from the event, for a time period to be determined by the school administration. Ignoring such a ban will put the entire group in jeopardy.

We do this as a courtesy. If we have problems, we will shut down the event. The entire group should self-monitor the situation to see these guidelines are being met, otherwise, this program will cease.

**CHANNELS OF COMMUNICATION FOR
BOARD OF EDUCATION MEMBERS AND SCHOOL EMPLOYEES
Burrton, USD 369**

The Board of Education has a legitimate interest in maintaining order by directing that employee communications to the School Board be solved at the lowest level possible.

The Board of Education is primarily a policymaking body; it is the administration who implements those policies. A chain of command exists in school districts as it does in many organizations. It is important that concerns be addressed by the person closest to the source before going to the Board.

Board members will listen to communications or complaints from parents and/or patrons except that as individual board members they cannot by themselves take any action which would be binding on the official board.

Board members occasionally receive complaints directly from parents or citizens of the community and these should immediately be referred to the superintendent. In handling complaints, the board will not, as individuals or as a board, consider any complaints from staff members, parents or patrons until they first have been referred to the superintendent and building principal. In case a satisfactory adjustment cannot be made by the district administrator, the individual can request to make comments during the patron comment portion of a board meeting as noted on the agenda.

Staff members having complaints, or receiving complaints should handle those concerns, beginning at the lowest level, beginning with the staff member or building principal and then the Superintendent. If satisfactory adjustment cannot be made by district administration, the patron may present their concerns during the patron comment section of the board meeting. Employees are expected to follow the established chain of communication as described in this policy.

Burrton High School Cheerleading Tryouts

The cheerleading candidates for Burrton High School will be required to perform the following tasks at tryouts in the spring of the school year:

1. Group cheer
This will be performed with three to four other candidates. Judges will score on actions, coordination, spirit, and how the candidate performs in a group.
2. Individual cheer
This will be performed individually and will be scored on actions, coordination, spirit, and voice.
3. Fight song routine
This will be performed in a group of three to four. Judges will look for how well the candidate can perform the routine. They will look for knowledge of the routine, coordination, and movements.
4. Jumps
The candidates will be required to perform at least two cheerleading jumps. They will be shown several different jumps at practices and can choose the two they wish to be judged on.

There will be a sign-up sheet in the office for one week for students to sign up to participate in cheerleading tryouts. If their name is not on the sign-up sheet at the end of that week, they will not be allowed to participate in the tryouts.

There will be a series of practices before and after school where the candidates will learn the cheers and the fight song required for the tryout. Candidates will be required to attend at **least three** of the practices.

The sponsor and/or administration will pick judges. The best is to have Hutchinson Junior College cheerleaders come do the judging. They offer this service free of charge to schools in the area.

BOE approved June 14, 1999

Amendment approved by BOE April 13, 2004

The squad shall be limited to no more than eight cheerleaders. (Two or more yell-leaders may participate, but the total number of cheerleaders and yell-leaders will not exceed a total of eight.)

USD 369 Extra-Curricular Activity Heat Policy

Heat illness in athletes is a serious situation, and if not handled properly can have catastrophic consequences. This policy is to guide decisions regarding athletic participation in extreme heat/humidity environmental conditions. This will help us ensure that our athletes have an opportunity to train safely and effectively in situations of extreme heat/humidity. The policy applies to all extra-curricular outdoor activities.

The chart below will be used to assess the potential severity of heat stress during outdoor activities. The chart should be used as a guideline for determining practice time and equipment requirements. Individual reactions to the heat will vary among athletes and coaches are always expected to exercise proper judgment based on their observations.

High School Extra-curricular Activity Trips Return Policy

One of the most important experiences of extra-curricular activities is learning to be a team - sticking together, win or lose, and developing a camaraderie and respect that goes beyond a game or contest.

To that end, our preference is to have all participants ride to and from activities on the activity bus. We do understand that there may be occasions when the child may need to go with their parent after the event. We have established this uniform policy for the convenience of parents so the procedure will be consistent, regardless of the activity.

For documentation purposes, we are asking that the parent give the sponsor/coach a signed note stating the reason the student will not be returning with the group, *prior* to the bus departing for the event. The parent will then make contact with the sponsor/coach at the conclusion of the event so we know we are releasing the child to the parent. If you have special circumstances that require other arrangements, please contact the sponsor/coach *prior* to the event.

These guidelines are established for the safety of our children. We appreciate your cooperation and understanding.

Head Lice Board Policy

- 1) Loss of attendance at school should be limited to what is necessary for effective treatment to be initiated
- 2) District staff or parent/guardian may refer the student to the office for a head lice check,
- 3) A school representative will check the student's head for live lice and nits (eggs), Finding a nymph or adult louse may be difficult as head lice can move quickly from searching fingers, If crawling lice are not seen, finding nits within 1/2 inch of the scalp confirms that a person is infested and should be treated, Treatment should be started when active lice or viable eggs (nits within 1/2 inch of the scalp) are observed, In general when nits are more than 1/2 inch from the scalp, and don't see a nymph or adult louse, the infestation is probably an old one and does not need to be treated,
- 4) If there is presence of a nymph, adult head louse and/or nits within 1/2 inch of the scalp:
 - a) The parent/guardian is phoned requesting the student be taken home for treatment with an antiparasitic hair product. The school will send a letter home to the parents/guardians.
 - b) Information on the head lice, treatment, and prevention will also be sent home. Parents/guardians will be encouraged to check their children's head for head lice on a weekly basis,
 - c) For those parents/guardians who cannot afford all antiparasitic drug, USD 369 will provide a pediculicide without cost.
 - d) USD 369 staff will check other students who were most likely to have had direct head-to-head contact (e.g. classroom, siblings) with the student found to have an active case of head lice or nits within 1/2 inch of the scalp,
- 5) Upon return to school a school representative will recheck the student for live lice.
- 6) The parent/guardian will provide the school with proof of treatment (e.g. product packaging).
- 7) The student will be rechecked at various intervals to screen for additional nymph, adult louse or nits within 1/2 inch from the scalp,
 - a) Nits are incubated by body heat and hatch in 7 to 14 days
 - b) Since nits are particularly resistant to some chemical treatments, a second treatment is often required about 7-10 days later to target the nymphs that hatch after the initial treatment.
 - c) Nymphs mature into adults about 7-12 days after hatching
 - d) If not treated, this life cycle may repeat itself every 3-4 weeks
- 8) USD 369 staff is not responsible for delousing or taking nits (eggs) out of students hair.
